AGS 601 OFFSET NARROWLINE (150mm)

The AGS 601 Narrowline framing system delivers an increased level of structural performance with the 150mm frame depth while maintaining a common external appearance by matching its 44mm face dimension and glass set-back.

The offset glazing pocket allows the AGS 601 & AGS 400 Narrowline framing systems to be easily combined. This provides great flexibility, enabling the use of the 150mm head, sill and jamb with 100mm transoms from the the 400 series to accommodate AGS 400 Narrowline sash and door options.

FEATURES AND BENEFITS

- 150mm x 44mm offset pocket framing system
- Suits most commercial applications requiring more strength than the AGS 400 Narrowline but with the same look and product compatibility
- Crisp, unbroken lines for clean aesthetics
- Designed to match external appearance of AGS 400 Narrowline
- Mullion options for design flexibility
- Captive glazing wedge options for easier on-site glazing
- Compatible door and window suites available
- Internal and externally beaded options
- Sub-frame options

MAXIMUM PERFORMANCE

Serviceability Pressure	4500Pa
Ultimate Pressure	11000Pa
Water Penetration	900Pa

FRAME DIMENSIONS

Depth	150mm
Height	44mm

MAXIMUM RECOMMENDED SIZE

Height	5000mm
Width	2200mm

GLAZING CAPACITY

Single Glazed	4-10mm
